

## **ADDITIONAL SELECTION CRITERIA FOR APPLICANTS WITH A BACHELOR OBTAINED ABROAD**

Students who intend to apply for enrollment in the Master Program in Computer Science should provide evidence of significant background in Computer Science or related disciplines at the Bachelor level, and demonstrate adequate competency in spoken and written English to enable them to participate in technical discussions and read the scientific literature on the course topics.

The evaluation of the applications will be primarily based on:

- Proof of Diploma of Bachelor studies in a discipline related to Computer Science
- Transcripts of exams and final evaluation
- Declaration of Value issued by the Italian Embassy
- Syllabus of all courses
- IELTS or equivalent proof of the level of spoken and written English
- Motivational letter describing why the applicant intends to study Computer Science at Sapienza University.

Further elements of assessment will be:

- GRE (Graduate Record Examination)
- Documentation of the activities performed during the time since receiving their Bachelor degree, if longer than one year.

The evaluation of an application may involve a remote assessment (via Skype conference) of the background skills.
